

FLOAT INTO OPEN SOURCE SECURITY: A SECURITY ENGINEER'S JOURNEY WITH OPENSSF

5 COMMUNITY ENGAGEMENT

Build presence and relationships within open source communities and ecosystems.

- COMMUNITY CALENDAR
- WORKING GROUPS
- OPENSSF SLACK
- EVENTS

Just getting started with open source security?

1 SECURITY TOOL LANDSCAPE

Discover and learn about open source security tools for vulnerability scanning, code analysis, and threat detection

- CASE STUDIES
- TECH TALKS
- BLOG

2 EVALUATION TOOLS

Tools and automation solutions to streamline and scale your open source project assessments.

- OSPS BASELINE
- GUAC
- SLSA

4 REGULATORY TOOL MAPPING

Understand how OpenSSF security tools map to regulatory compliance requirements and frameworks

- GLOBAL CYBER POLICY WG
- OSPS BASELINE
- ORBIT WG

6 UPSTREAM COORDINATION

Collaborate with project maintainers on contributions, issues, and project governance

- GUIDANCE FOR COORDINATED VULNERABILITY DISCLOSURES
- DEVELOPER RELATIONS
- CONTRIBUTING GUIDE
- JOIN OPENSSF

7 TECHNICAL GROWTH

Grow your skills and career

- OPENSSF TRAINING
- WORKING GROUPS

3 VULNERABILITY ALERTS

Learn how to monitor and receive timely alerts about vulnerabilities in your open source dependencies

- VULNERABILITY DISCLOSURES WG
- OPENWALL
- OPENVEX
- SIREN

8 SAFE USE OF AI/ML/LLM

Securely explore AI/ML & LLMs

- AI/ML SECURITY WG
- MLSECOPS WHITEPAPER
- FREE AI/ML SECURITY COURSE
